BRAIN

A *journal of neurology*

Volume 118

Edited by W. I. McDonald

Deputy editor J. B. Clark

with the help of

H. Bachelard
D. F. Benson
E. Bisiach
Th. Brandt
D. A. S. Compston
D. I. Graham
M. Hallett
A. E. Harding
M. J. G. Harrison
J. S. Kelly
G. L. Lenzi
J. G. McLeod
C. D. Marsden
A. R. Mayes
J. C. Mazziotta
M. M. Mesulam
J. A. Morgan-Hughes
M. A. Ron
P. Rudge
G. Said
S. Shorvon
D. S. Zee

Assistant Editor C. A. Lovelidge
Secretary and Treasurer R. S. J. Frackowiak

Title and subject index for Volume 118, 1995

Abnormal muscle coactivation patterns during isometric torque generation at the elbow and shoulder in hemiparetic subjects (Dewald *et al.*), 495
Abnormalities of gyration, heterotopias, tuberous sclerosis, focal cortical dysplasia, microdysgenesis, dysembryoplastic neuroepithelial tumour and dysgenesis of the archicortex in epilepsy: clinical, EEG and neuroimaging features in 100 adult patients (Raymond *et al.*), 629
Acquired pendular nystagmus (Averbuch-Heller *et al.*), 369
Activity-dependent changes in impulse conduction in normal human cutaneous axons (Miller *et al.*), 1217
Acute motor neuropathy (Visser *et al.*), 841
Agnosia, auditory (Engelien *et al.*), 1395
visual, with pure alexia (Feinberg *et al.*), 789
Agraphia in Alzheimer's disease (Penniello *et al.*), 697
AIDS-associated vacuolar myelopathy: a morphometric study (Tan *et al.*), 1247
Akinetopsia, and inactivated areas V1 and V5 (Beckers and Zeki), 49
and motion and shape perception (Rizzo *et al.*), 1105
Alexia, pure, with visual agnosia (Feinberg *et al.*), 789
Alzheimer's disease, and agraphia (Penniello *et al.*), 697
and locus coeruleus (Hoogendijk *et al.*), 131
and spatial attention (Maruff *et al.*), 1421
hereditary (Kennedy *et al.*), 185
Amnesia, after thalamic infarction (Lucchelli *et al.*), 167
related brain areas (Keane *et al.*), 1129
Amygdalotomy followed by face processing impairments (Young *et al.*), 15
Amyloid polyneuropathy, familial (Reilly *et al.*), 849
Amyotrophic lateral sclerosis, and axonal ion channel dysfunction (Bostock *et al.*), 217
and the locus coeruleus (Hoogendijk *et al.*), 131
in a database population (Haverkamp *et al.*), 707
Anosognisia (Carpenter *et al.*), 243
Anterior choroidal artery territory infarcts (Pullicino *et al.*), 1355
(Hupperts *et al.*), 1353
Anterior cingulate cortex and behaviour (Devinsky *et al.*), 279
Apraxia, limb (Poizner *et al.*), 227
visuomotor (Classen *et al.*), 1365
Archicortex dysgenesis in epilepsy (Raymond *et al.*), 629
Arm weakness memory in intracarotid sodium amytal testing (Carpenter *et al.*), 243
Arteriopathy, cerebral autosomal dominant (Sabbadini *et al.*), 207
Asymmetries in the covert orienting of visual spatial attention to spatial and non-spatial cues in Alzheimer's disease (Maruff *et al.*), 1421
Asymptomatic cerebral embolic signals in symptomatic and asymptomatic carotid artery disease (Markus *et al.*), 1005
Ataxia, hereditary, and axon loss (Davie *et al.*), 1583
hereditary, in Martinique (Dürr *et al.*), 1573
myoclonic, with coeliac disease (Bhatia *et al.*), 1087
sensory (van Dijk *et al.*), 1557
Attention, deficits in Tourette's syndrome and Huntington's disease (Georgiou *et al.*), 1305
in Huntington's disease (Sprengelmeyer *et al.*), 145
in Parkinson's disease (Bennett *et al.*), 153
Auditory–verbal memory (Fletcher *et al.*), 401
Auditory agnosia recovery (Engelien *et al.*), 1395
Auditory and visual sensory representations in human prefrontal cortex as revealed by stimulus-evoked spike-wave complexes (Clarke *et al.*), 473
Auditory function (Sugishita *et al.*), 417
Auditory localization (Vallar *et al.*), 467
Auditory localization following hemispherectomy (Zatorre *et al.*), 879
Autosomal dominant cerebellar ataxia type I in Martinique (French West Indies): clinical and neuropathological analysis of 53 patients from three unrelated SCA2 families (Dürr *et al.*), 1573
Autosomal dominant late onset cerebellar ataxia (Giunti *et al.*), 1077
Autosomal dominant nocturnal frontal lobe epilepsy: a distinctive clinical disorder (Scheffer *et al.*), 61
Autosomal dominant progressive supranuclear palsy (Yébenes *et al.*), 1095
Awareness of and memory for arm weakness during intracarotid sodium amytal testing (Carpenter *et al.*), 243
Axon loss and functional deficit in multiple sclerosis and ataxia (Davie *et al.*), 1583
Axonal damage in Rasmussen's syndrome (Cendes *et al.*), 753
Axonal degeneration in Guillain–Barré syndrome (Griffin *et al.*), 577
Axonal ion channel dysfunction in

amyotrophic lateral sclerosis (Bostock *et al.*), 217

Basal ganglia, function in Parkinson's disease (Iansek *et al*), 1613
function in Parkinson's disease (Marsden and Obeso), 1613
functions (Marsden and Obeso), 822
functions (Zweig), 822
Blood–nerve barrier breakdown caused by T cells (Spies *et al.*), 857
Botulinum toxin-induced myopathy in the rat (Hassan *et al.*), 533
Botulinum toxin treatment for dystonia (Priori *et al.*), 801
Brain glucose in progressive supranuclear palsy (Blin *et al.*), 1485
Brain, injury and seizure type (Swanson *et al.*), 91
lesion volume in multiple sclerosis (Filippi *et al.*), 1593
metabolism in cavernous angiomas (Ryvlin *et al.*), 677
Brain systems for encoding and retrieval of auditory–verbal memory: an *in vivo* study in humans (Fletcher *et al.*), 401
Brainstem infarct topography (Vuilleumier *et al.*), 1013

Striatal D_1 and D_2 receptor binding in patients with Huntington's disease and other choreas: a PET study (Turjanski *et al.*), 689
Striatal neurons affected by hypoxia (Calabresi *et al.*), 1027
Striatal opioid receptor binding in Parkinson's disease, striatonigral degeneration and Steele–Richardson–Olszewski syndrome: a [^{11}C]diprenorphine PET study (Burn *et al.*), 951
Striatonigral degeneration and striatal opioid receptor binding (Burn *et al.*), 951
Stroke, CADASIL study (Sabbadini *et al.*), 207
muscle coactivation patterns after (Dewald *et al.*), 495
muscular flaccidity after (Pantano *et al.*), 1329
Subcortical nodular heterotopia (Dubeau *et al.*), 1273
Subcortical origin of visuomotor apraxia (Classen *et al.*), 1365
Superficial siderosis of the central nervous system (Fearnley *et al.*), 1051
Supplementary motor area in Parkinson's disease (Cunnington *et al.*), 935

T cell effect on blood–nerve barrier (Spies *et al.*), 857
T lymphocytes and inflammatory peripheral neuropathy (Harvey *et al.*), 1263
Tactile unit properties after human cervical spinal cord injury (Thomas and Westling), 1547
Tangles, neurofibrillary, in Niemann–Pick disease (Love *et al.*), 119
Temporal lobe, atrophy and prosopagnosia (Evans *et al.*), 1
epilepsy and seizure duration (Maher and McLachlan), 1521
epilepsy and hippocampal sclerosis (Mathern *et al.*), 105
Thalamic infarction followed by amnesia (Lucchelli *et al.*), 167
Thoracic outlet syndromes and MRI (Cherington *et al.*), 819
(Panegyres *et al.*), 820
Time estimation in Parkinson's disease (Schnider *et al.*), 485
Torsion dystonia, idiopathic (Eidelberg *et al.*), 1473
Torticollis (Kkaji *et al.*), 511
Touch perception and spinal cord injury (Thomas and Westling), 1547
Tourette's syndrome and attention deficits (Georgiou *et al.*), 1305
Toxin-induced paralysis (Hassan *et al.*), 533
Transcranial Doppler and cardiovascular responses during cardiovascular autonomic tests in migraineurs during and outside attacks (Thomsen *et al.*), 1319
Transcranial magentic stimulation (Beckers and Zeki), 49
(Meyer *et al.*), 429
Transcranial magentic stimulation over the posterior cerebellum during visually guided saccades in man (Hashimoto and Ohtsuka), 1185
Transthyretin gene analysis in European patients with suspected familial amyloid polyneuropathy (Reilly *et al.*), 849
Trapezius muscle hardness in headache application (Sakai *et al.*), 523
Tremor in handwriting (Bain *et al.*), 1461
Trinucleotide repeat expansion in cerebellar ataxia (Giunti *et al.*), 1077
Tuberous sclerosis in epilepsy (Raymond *et al.*), 629
Tumour necrosis factor and demyelination (Redford *et al.*), 869
Tumoural parietal lobe epilepsy: clinical manifestations and outcome in 34 patients treated between 1934 and 1988 (Salanova *et al.*), 1289

Ubiquitin-positive degenerating neurites in the brainstem in Parkinson's disease (Gai *et al.*), 1447

Vacuolar myelopathy and AIDS (Tan *et al.*), 1247
Vascular changes and demyelination induced by the intraneural injection of tumour necrosis factor (Redford *et al.*), 869
Vascular myopathy (Hassan *et al.*), 533
Vestibular-guided saccades (Israël *et al.*), 1169
Visual agnosia with pure alexia (Feinberg *et al.*), 789
Visual cortex and akinetopsia (Rizzo *et al.*), 1105
Visual disorders and reading impairment (Zihl), 891
Visual evoked potential asymmetry in non-decussating retinal-fugal fibre syndrome (Apkarian *et al.*), 1195
Visual motion inputs into cerebral cortex (ffytche *et al.*), 1375
Visual motion perception (Beckers and Zeki), 49
Visual processing in migraineurs (Wray *et al.*), 25
Visual spatial attention in Alzheimer's disease (Maruff *et al.*), 1421
Visually guided saccades and the cerebellum (Hashimoto and Ohtsuka), 1185
Visuomotor apraxia (Classen *et al.*), 1365
Visuospatial attention in Parkinson's disease (Bennett *et al.*), 153
Visuotopic misrouting in non-decussating retinal-fugal fibre syndrome (Apkarian *et al.*), 1195

Weight judgment: the discrimination capacity of a deafferented subject (Fleury *et al.*), 1149
Widespread cerebral structural changes in patients with cortical dysgenesis and epilepsy (Sisodiya *et al.*), 1039
Writing impairment, *see* Agraphia

The editor and the editorial board are most grateful to the following referees who have helped during the year November 1, 1994 to October 31, 1995
